

Early Years News

Our learning opportunities for the week commencing **14th November 2016** will be related to 'colour'. This week we are learning about signs of autumn, energy and recycling.

We will be: decorating recycled CDs to hang in our outside area; sorting recyclable items; making electrical circuits and playing in a role-play charity shop.

On the baking and tasting table we will be exploring foods in plastic, cardboard and tin packages. We will also be looking at which foods can be used for compost and how to 'recycle' food.

Reception's visit to the school library takes place on Wednesdays. If you're finished with a book, please can children bring it in to exchange on this day.

On Thursday 17th November we will be taking a walk into Holmfirth to put some items into the recycling. We also hope to donate some items to the charity shop in order to show how possessions can be recycled. If you have anything which you would like us to donate, please bring it into school from Monday 14th.

**For show and tell:
make something
from recycled
objects and bring it
in to show us!**
